

# C230

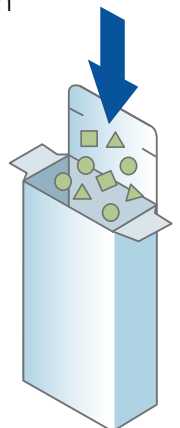

## Vertical Cartoning Machine

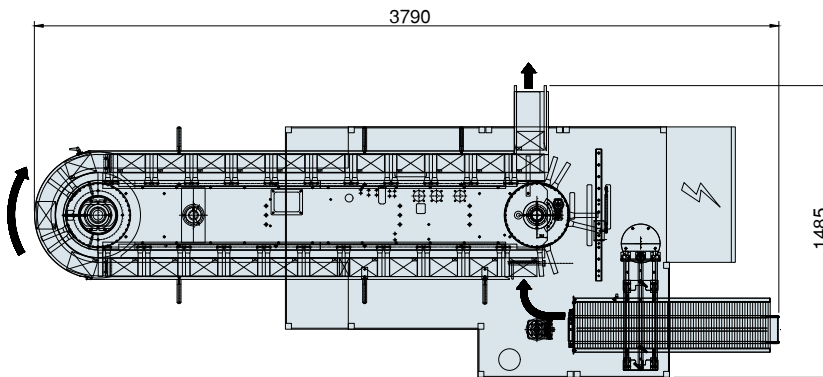

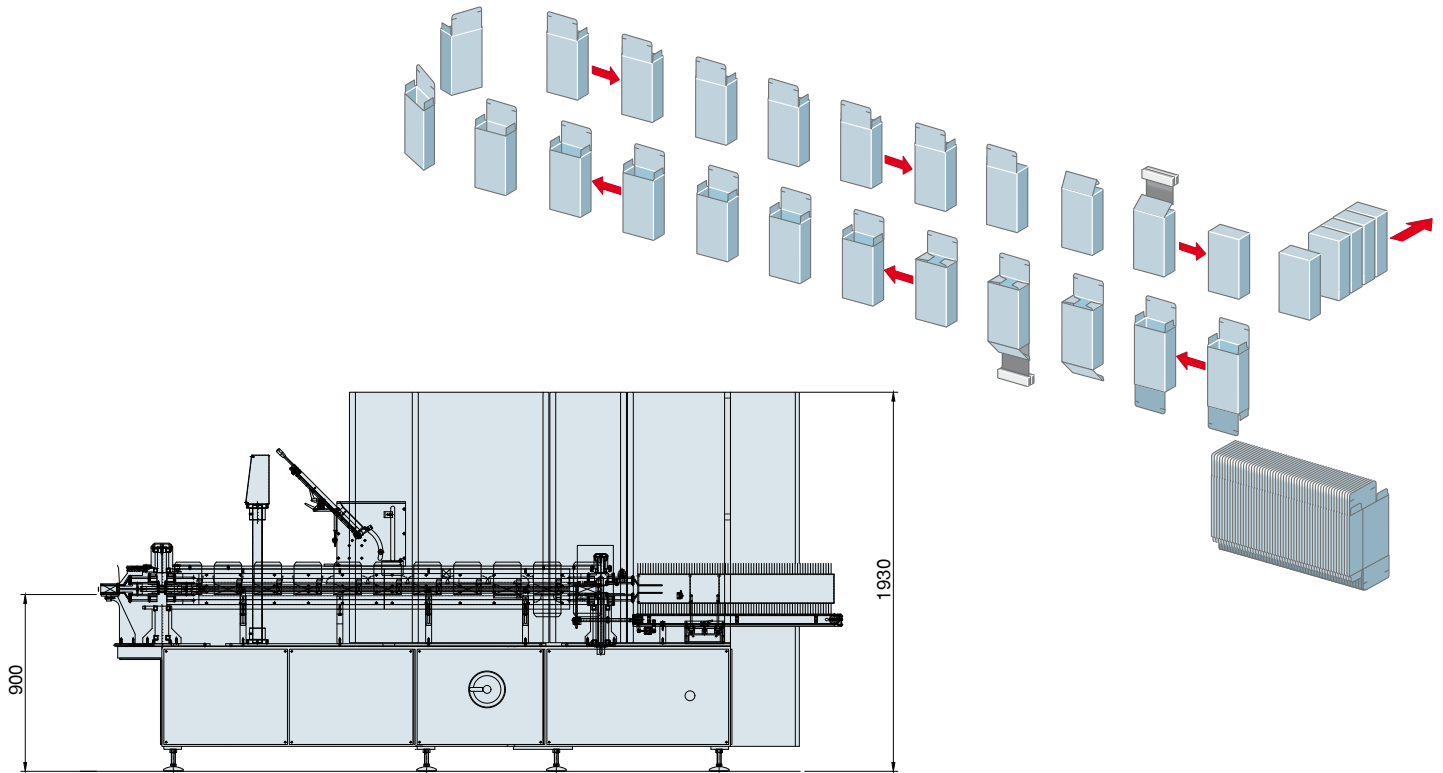

The **C230** is a top-load, intermittent motion cartoning machine suitable for manual or automatic feeding of pharmaceutical, nutraceutical, cosmetic and food products into pre-glued cartons.

It features a raised conveyor bed designed for easy cleaning, with no hiding spots for rogue product to hide; positive carton pick-up and forming; controlled carton transportation based on adjustable belt system and coated guides to eliminate marking on components. The machine is straightforward to operate and maintain, with fast changeover mainly based on adjustments. It is available with a 2-operator or extended 4-operator manual loading area.

Tuck-in, hot melt or a combination of tuck-in and hot melt (tamper evident) flap closures are available.

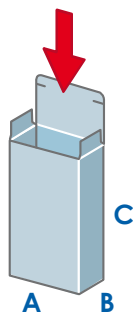

### The machine can arrange:

- Casters for portability;
- Automatic feeding systems for round/shaped glass or plastic bottles, jars, others;
- Pre-folded leaflets and booklet dispensers;
- Leaflet folding units (GUK);
- Barcode reading systems;
- Ink/emboss coding units or inkjet printers;
- Remote connectivity.

## Technical Data

	A (mm)	B (mm)	C (mm)
<b>C230</b>	25 ÷ 140	15 ÷ 90	55 ÷ 250

	<b>C230</b>
<b>Mechanical output</b>	70-80 carton/min
<b>Power supply</b>	230÷400V - 50Hz
<b>Installed power</b>	
Hot melt closure	6.5 kW
Tuck-in closure	1.5 kW
<b>Max. air consumption</b>	200 NI/min
<b>Changeover time</b>	10 min
<b>Approx. weight</b>	1,200 kg
