

# C712

Side-load Case Packer

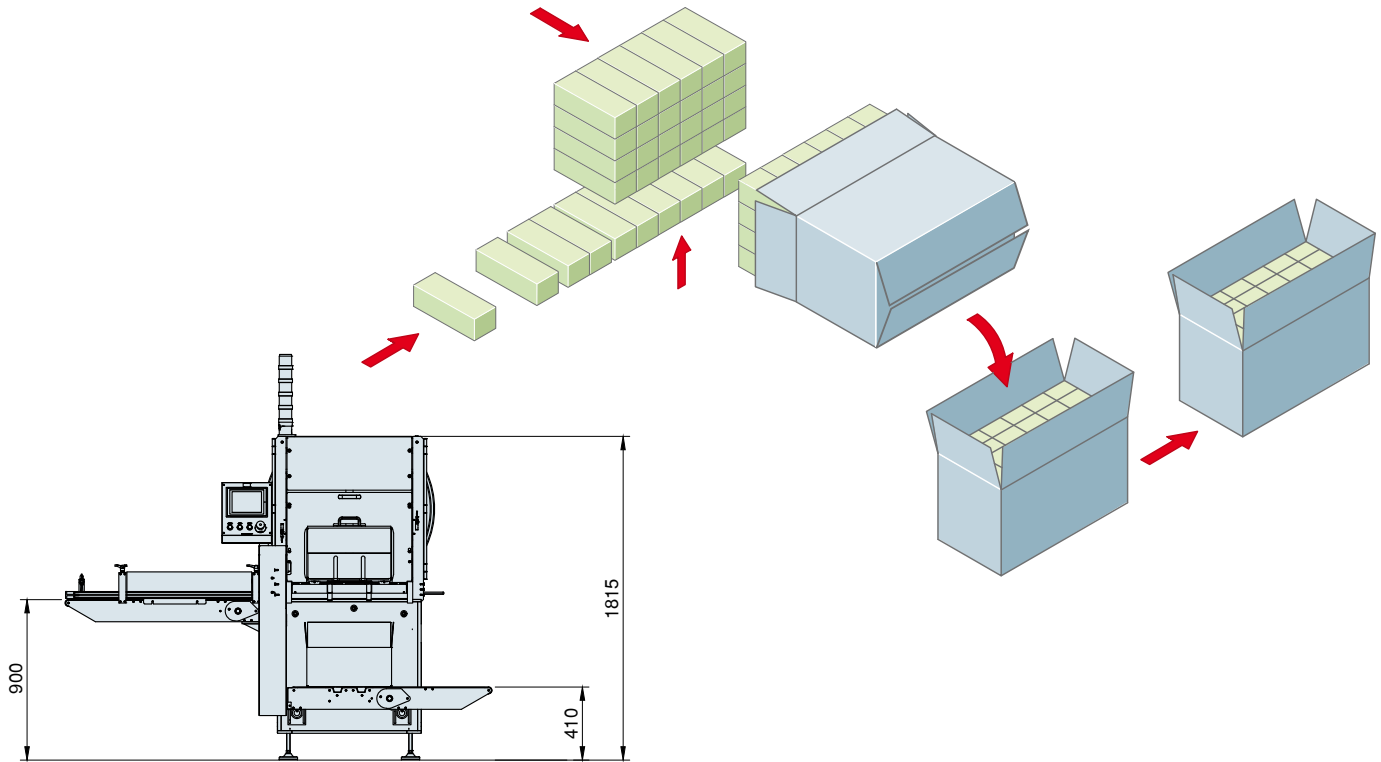

The **C712** is a compact semi-automatic side loading case packer suitable for packaging cartons, bundles, sachets, bags, and flow-packs inside a corrugated shipper (RSC).

Incoming products are stacked in the required configuration and pushed inside a manual formed case through a hopper. A tilting mechanism deposits the full case on the outfeed conveyor. All movements are pneumatically actuated and electronically controlled. The machine is straightforward to operate and maintain, with fast changeover mainly based on adjustments and replacement of the product hoppers. It can be connected downstream to one of our cartoning machines to obtain a complete line.

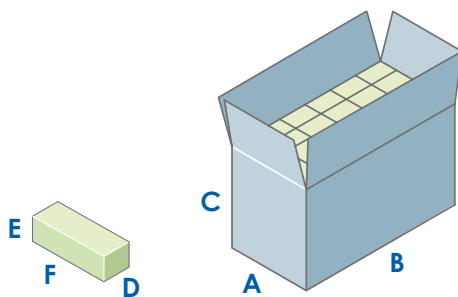

More than just packaging solutions

**The machine can arrange:**

- Casters for portability;
- Automatic tape sealing unit;
- Idle roller conveyor exit;
- Remote connectivity.

Technical Data

	A (mm)	B (mm)	C (mm)	D (mm)	E (mm)	F (mm)
<b>C712</b>	150 ÷ 500	150 ÷ 500	200 ÷ 600	150 ÷ 250	150 ÷ 250	50 ÷ 250

	<b>C712</b>
<b>Mechanical output</b>	15 carton/min
<b>Power supply</b>	230÷400V - 50Hz
<b>Installed power</b>	1.5 kW
<b>Max. air consumption</b>	200 NI/min
<b>Changeover time</b>	5/10 min
<b>Approx. weight</b>	560 kg
